Balance Inquiry: Checking the account balance for users to verify their funds.

3. SYSTEM FEATURES

1. User Authentication & Security
2. Transaction Processing
3. Cash Management
4. Hardware Integration
5. User Interface (UI)
6. Transaction Logging & Reporting
7. Network & Backend Integration

4.EXTERNAL INTERFACE REQUIREMENTS

1. User Interfaces (UI)

ATM screen interface

Input methods

Output

2. Hardware Interfaces

Card Reader

PIN Pad

Cash Dispenser

Receipt Printer

Sensors

3. Software Interfaces

Bank Core Banking System

Transaction Switch

Authorization System

Logging & Audit System

Fraud Detection System

4. Communication Interfaces

Network Protocols

Message Standards

Encryption

5. NON FUNCTIONAL REQUIREMENTS

1. Performance Requirements
2. Security Requirements
3. Reliability Requirements
4. Usability Requirements
5. Maintainability Requirements
6. Scalability Requirements
